INTERNSHIPS

Elite software | IT / Computers - Software

11 Dec, 2023 - 25 Jan, 2024

software Developer

HTML provides the structure, CSS handles the presentation, JavaScript adds interactivity, and PHP enables server-side processing and dynamic content generation.

Together, these technologies form the foundation of modern web development, which I gained experience with during my internship.

PROJECTS

Mystrymessage

04 May, 2023 - 20 May, 2024

Mentor: Hitesh choudhary | Team Size: 1

Key Skills: HTML, CSS, JavaScript, Next.js, Resend Email Library, MongoDB

Developed a full-stack web application using NestJS for the backend API and React for the frontend.Implemented data modeling with Mongoose. Created a feature for users to generate unique links, allowing others to send messages to the link creator. Integrated React Hook Form for form handling and validation, ensuring a smooth user experience.

MERN-GitHub-Repo.-App

15 Feb, 2024 - 10 Apr, 2024

Mentor: Burak Orkmez | Team Size: 1

Key Skills: MERN , TailwindCSS , Github API

Built a full-stack web application using the MERN stack to interact with the GitHub API.

The application features a search bar where users can input a GitHub username to retrieve and display the user's repositories and profile information.

Leveraged Node.js and Express.js to create a backend server that communicates with the GitHub API.

Utilized React.js for the frontend to dynamically render the search results and present the data in a user-friendly manner.

Styled the application using Tailwind CSS for a modern and responsive design.
